A Former Mayor's Appeal to His Neighbors

Dear Friends,

Most of us that live in off-island communities have HOA's that can, and often have, set limits or excluded Investor Owned Short Term Rentals in order to maintain a peaceful atmosphere in our communities.

The people that live on Folly Island proper do not have that luxury and depend on City Council to protect their quality of life. On June 28th, by a vote of 5-2, City Council refused to limit ISTRs citywide and moved Folly closer to the complete commercialization of the residential districts.

We are all in this together, because the loss of quality of life on the island will ultimately affect each of us. I ask you to sign the petition that would force City Council to protect the island proper from the complete loss of permanent residents. An unlimited number of Investor Owned Short Term Rentals will ultimately remove the heart from the community as permanent residents are replaced with temporary visitors. Help save our community, please.

Sincerely, Richard Beck (City Council 1978-1982 / Mayor 1982-1987)

Citizen's Petition

To limit Investment STRs to 800
