Mission: Reverse Island's Population Decline

Council STR Work Session - Monday at 4:30pm

Strictly an Informal Council Discussion

No Public Comments Permitted - No votes will be cast !

Executive Session begins at 4:30 pm

Public Work Session:

- Discuss "technical" changes to Citizen's Petition without altering its spirit or goals.
- Discuss New Administrative STR Policies.
- Discuss Business License amendments.
- Introduce Broad Brush Suggestions for the STR Waitlist.

Bottom Line:

- As written, the proposed changes will not substantively alter the spirit or goals of the Referendum.
- The STR objectives that 656 people voted for are still intact.
- Save Folly's Future views some of the "technical" changes as unnecessary, but none of the changes will alter the overall dynamics of the referendum.
- The STR Waitlist ideas are, hopefully, the beginning of a process that will allow for public input. The waitlist proposals need improvement.
