Editorial Comments

- **Most ISTRs are owned by outside investors.**
- **It's important that the ISTR Cap remains at 800.**
- **Creating a Golden ISTR license will benefit outside investors and disadvantage those on the wait list.**
- **The only way a resident on the wait list can move up is if the cap remains at 800 and is strictly regulated.**
- **City Council needs to finish what the Citizen's Petition started. Create a family friendly wait list.**
- **Transferring an interest in your property to a family member while you are on the wait list should not alter your standing, if the transfer is a gift.**
